

CT Frame Glass Backwall

10.03.15

description: Toughened one-pane safety glass with etching, 12 mm thick. The glass wall consists of two panels and one glass door with white ceramic silk-screened lines bonded into the glass at 25 mm, centres, 610 mm high and 2 mm wide. The clear entrance width is 914 mm (barrier-free access). The glass panels are supported by an aluminum frame. The glass door is mounted laterally with hinges. The door opens to the inside of the court.

specs:	total size:	b / h = 6,44m / 2,23m	area:	14,36m²
	thickness:	12mm		
	weight net:	650kg		
	weight gross:	700kg		

proofs:

1. test according WSF regulations
2. test according EN 12150
